Philip DePalo

## Show Description

**FIRE & STEEL** is the name that is driving audiences all over the nation wild! This show will shake every bone in your body, including that funny one. First Philip clears his throat with 25 inches of cold steel, and while the audience shivers he heats things up by breathing fire at over 1000 degrees Fahrenheit.

Having studied the ancient art of sword swallowing, Philip crafts his performance around this serious art adding a twist of comedy. Then Philip takes you on a comic adventure as he juggles everything from body parts and knives to torches. You could be catching just about anything, except a cold during his show. Don't miss Philip DePalo as he performs **FIRE & STEEL!!!**
